SHORELINE HOTEL

Waikiki, Honolulu

The lowdown Located in the heart of Waikiki, the hotel stands out for its colourful designs and custom art. Conceptualised by Army of Moon People and designed by BMDM Design, the hotel brings to life the dramatic landscape and sunsets of Hawaii with a contemporary twist. Designs are a bold mix of colours and patterns, blending Hawaiian inspirations, bright colour palettes, and modern shapes, to create the perfect aloha experience. From the rooftop pool to sundowners, your stay will be an unforgettable experience.

A vibrant ombré signature wall, painted by DJ Neff, greets you as you enter the open-air lobby. The re-imagined lobby features rattan cage light fixtures, housing papier-mâché bird sculptures of local species. The best is, however, the 26-foot tall white *Jungle Wall* art piece in the lobby. From custom furnishings and an updated rooftop pool deck with commissioned mural artwork, each area is a treat for the eyes. Colour changing lighting adds charm to the custom white styrene leaf

It makes for an ideal island home as you can breathe the ocean air from your private balcony.
